### **DETAILED ACTION**

In response to the amendment filled on 2/4/2005, all the amendment have been entered and the action follows:

1. Applicant's arguments, see page 8, filed 2/4/2005, with respect to claims have been fully considered and are persuasive. The rejection of claim has been withdrawn.

#### ***Allowable Subject Matter***

2. Claims 2-5, 7, 9, 11-15, 18, 20 (renumbered as 1-13) are allowed.
3. The following is an examiner's statement of reasons for allowance:  
  
Claims 11 and 13 and their corresponding depended claims are allowed because the prior art alone or in combination fails to disclose or teach an inspection method and system that includes selecting an initial estimate of a threshold by using the average gray-level of the  $2n$  brightest pixels in the image, where  $n$  is the size of the model; segmenting the image into a background region and an object region in accordance with the threshold, with the pixels having a gray-level less than the threshold being assigned to the background region and all other pixels being assigned to the object region; calculating the mean gray-levels within the background and object

regions, respectively, calculating a new threshold in accordance with the calculated mean gray-levels and the number of pixels in each region, repeating the above steps of segmenting, calculating gray-levels and calculating new thresholds until convergence is reached, and obtaining the segmented object from the final pixels in the object region, in combination to the other limitations as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
